That's a LOT of static to remove.

So you felt the need to remove static on a vocaroo recording of you saying your username, but didn't feel like running it through the ringer for your actual normal voice?

I want to believe, but something feels off.

Say "Nevieth is my daddy" in harem voice to prove.

For science.

Velo - December 8, 2016, 8:37 pm

pls say "I love my Cringe Daddy"

Add in a tehehe or something ty.

test - December 8, 2016, 8:40 pm

One sounds like complete potato ass quality and the other one sounds like studio quality. I don't really believe that is you lmao.
