Just started playing this fcking legend.
One of the games that will make you forget to eat.

Getting ahead , I might finish it in a week or so.
Is the 2 dlc's worth buying? ?

and any suggestions when I finish this one will be greatly appreciated.

What's this game about if you don't mind me asking

The DLC's are worth it. Hearts of Stone has about 10 hours extra gameplay time and the story is cool, but Blood and Wine gives you a whole new map and has 20+ hours of gameplay. Amazing DLC's. It's like another game that they just called expansions.
