Thread: [crypter without .Net dependencies](#)

Computerjul - December 9, 2016, 1:24 am

Hello,

searching for a good crypter without .net dependencies. Btw are there any dis-/advantages for that ? Is that called native crypter ? Which one u would recommend as a good and stable, well coded and fud crypter .. is has been a long time since i used these programs :) Can even pay a bit

Greetings

martin leo - December 9, 2016, 4:25 pm

its called native or c++

anyway : native crypter :Darkeye + spartan +star crypter

private crypter : octopus

adv/ not need net framework (especially win xp but in win 7 -8-10 netframework is pushed with windows (no problem)

disadv./ depend on feature of crypter

thank you
