Thread: [Official Group - Aequitas - Graphics Request \\$200 USD BTC/PP - LAUNCH 1st FEBRUARY](#)

ra1d - December 9, 2016, 9:05 am

I officially have a deal with zSerity that I will be buying Enigma on the 1st of February.

And before I buy the group I want the graphics to be ready so I can get started with the group right away.

Yes, I am approved.

(Dec 14, 2016 03:24 PM)Omniscient Wrote: [\[CITE\]](#) OP approved as a group owner.
The deadline is the 25th January. // DEADLINE CANCELLED, I WILL WAIT UNTIL I HAVE WHAT I WANT.

I'll need a userbar, logo / icon, and a header for the group.

Group info:

Code Group Name: Aequitas

Group Information:

Aequitas is formed to bring individuals together that share the same interest in general IT knowledge and especially with focus on the security aspect of the IT world.

We will recruit people with an open mindset, a desire to learn and teach with fellow users.

Technical info:

Userbar - 136 x 42 pixels(width & height)

Forum Icon - 40 x 40 pixels (width & height)

Header - Whatever is fitting for the concept you develop.

Divider - Up to you for the size.

Idea / Concept:

I am thinking something like roman mythology or greek god(dess).

I prefer white / light colors as the group will be focused on ethical hacking.

Aequitas is latin and means equity, so try to bring this into the graphics.

Inspiration:

Inspiration of userbars I like.

- <http://hackforumswiki.net/index.php/Echo>
- <http://hackforumswiki.net/index.php/Divine>

I really want to see an entry with LIGHT colors, with a roman mythology theme and at the same time it looks tech-ish.

<http://www.thaliatook.com/OGOD/aequitas.php>

<http://www.urbandictionary.com/define.php?term=aequitas>

Payment:

I can pay in either Bitcoin or PayPal up to the winner.

\$100 USD.

If I think the winning entry is super fucking dope I'll double the payment. (\$200 USD)

Please avoid posting unless it's relevant to the thread.

Kind regards.

Regardless if Ra1d buy's a group or not he would still be obliged to pay for the graphics submitted on the thread or this would be considered a fake contest and would leave his account open to closure.

It's not a contest, there's a separate section for those. He doesn't have to pay for anything submitted here if he doesn't use it. Most other threads here are avatar/signature requests and people rarely get what they actually want to use and pay for.

EDIT: Give me a bit of time and I'll give proper feedback.

FEEDBACK:

The userbar it self is amazing and very detailed, however, the style is not exactly as I want it.

If you could somehow make the face that is on the left be centered but front-facing instead of side-facing and then obviously make it look amazing.

I would also like to see some lighter colors as that is really something I want to be in the userbar that I choose.

If you can make it look ancient greek / roman mythology kind of and then at the same time incorporate something that looks modernized that would be nice too.

Also an update to OP.

If I think the winning entry is super fucking dope I'll double the payment. (\$200 USD)

It's way too dark.

I don't like the concept at all, the ships in the background looks way out of place, the Zeus faces also look weirdly placed.

I will try to find examples of userbars, graphics and other art pieces I like.

Inspiration of userbars I like.

I guess it could be considered a contest, all similar threads to this one has always been posted here, so I figured I would do that too.

Thanks for bringing that to my attention.

I never gave The Judge rights to re-sell my work, and it wasn't even sold to him in the first place...

Seeing as his account is banned and it never "sold", I won't pursue the issue, for now.

Anyways, it was a userbar I made a long time ago for a group that eventually fell through in the end. For this, I thought I'd revisit the concept again to give it a bit of a new light.

Though with how things turned out in the end, I think I'm going to retract it.

Unfortunately, I do not have the time to develop any further submissions.

Good luck to OP and all submissions in the thread.

debug - January 23, 2017, 3:25 pm

this just in. Unsurprisingly raid likes none of the above. Back to the drawing board, boys.

Some of them are looking very VERY nice not gonna lie.

A bit nicer, but not something I am satisfied with.

Would you mind trying to make a header and a divider for this concept?
Also try adding some dank animation, it seems like Omni has started allowing that again.
Just remember to keep it within the file size limits.

^ this means I really like it for anyone wondering.

I think he mainly meant animation within the userbar, just like the marketers' userbar.

Awesome work, Doge.

I think the animation from the header would be perfect on the userbar too, if it's not too large.

It would be too large. I was actually thinking about doing it but after considering the limited space, I've concluded that it wouldn't just work.

Looks dank, but the animation is too slow imo. Like the logo is too slow to "render", you feel me?

Also in the header I would like if you put the name Aequitas as text under the logo or any other way you think could look sick.

We might've found a winner. ???
