WallFlower is completely unrelated to Baka, besides the fact it's a purchased sector under the Baka userbar.

The weebz don't have access to the WallFlower sector password, so it'll just be for our purposes.

affiliated with Baka, the weebz will not have access to the sf unless I give them the password.

ama - December 10, 2016, 12:43 am

Name: UltPleb

Age: 18

Have you ever been in a relationship?: Yes, I've been in many relationships some were short term
and a few were pretty long term over the course of highschool.

Have you ever posted in the innuendo sector of HF? If so, how many posts do you have in there?: I
haven't really posted in there however I just found out recently about it and definitely am interested
in joining a sector revolving around this topic.

What interested you to apply for WallFlowers?: Because of the overall idea of the sector, I like how
we are able to give advice to others and actually help them with IRL problems and such. I believe I
will be a great addition to this group helping others out with relationship advice.

What have you got that you can offer WallFlowers?: I have many skills ranging from communication
to being overall a great dude. My main goal here is to make people happy and that's why I think
WallFlower is perfect for me.

What would your IRL and internet friends describe your personality?: Very outgoing and educated.

Thank you so much for the opportunity. ?

Have you ever posted in the innuendo sector of HF? If so, how many posts do you have in there?: Yeah, but like 4/5 or something.

What interested you to apply for WallFlowers?: The concept of it is really well done, and it feels like Innuendo but without the trolls.

What have you got that you can offer WallFlowers?: Experience, and I'm really good at writing sloppy paragraphs.

What would your IRL and internet friends describe your personality?: Intelligent (at times), and just always enthusiastic to try new things.

Leroy Jethro Gibbs - December 10, 2016, 4:46 am

Name: Leroy Jethro Gibbs

Age: 20

Have you ever been in a relationship?: Yes. Currently in a 2 year relationship.

Have you ever posted in the innuendo sector of HF? If so, how many posts do you have in there?: I have. I probably don't have very many. I stopped posting in there when it seemed to be nothing but troll post.

What interested you to apply for WallFlowers?: Honestly, I want to be in a group plus one I can contribute too. This couldn't have come at a better time.

What have you got that you can offer WallFlowers?: 8 years of experience with relationships lol. Anything from normal jr high drama all the way up too sexual topics.

What would your IRL and internet friends describe your personality?: Funny, Perverted, Asshole.

Prince™ - December 10, 2016, 5:14 am

Name: Prince

Age: 23

Have you ever been in a relationship?: Yes and currently am as well.

Have you ever posted in the innuendo sector of HF? If so, how many posts do you have in there?: Yes, I've posted. But it's not much, just 24 posts so far. The reason behind that is I've seen a lot of troll posts in the earlier days when the section was created. It made a bad image in me and the interest towards that section faded away.

I started visiting the section rarely. But when I see a "I'm going to kill myself" kind of thread, I'm always there to stop that from happening. Because killing yourself is never the solution to any problem.

What interested you to apply for WallFlowers?:

Because it's a personal touch that this part of the group is going to give to the community members. I'm sure a lot of members are going to be benefited by this group.

What have you got that you can offer WallFlowers?:

I'm a person with good interpersonal skills. I hope I can fit into this category of the group and serve as many of our fellow HF members who are in need of any relationship or personal help. I'm also a good listener. Usually my friends prefer me to explain their problems to, than others, mainly because I gain their trust soon and also build a good relationship without breaking the bond.

What would your IRL and internet friends describe your personality?:

Well basically many of my friends have defined me as a person who can understand another person's feelings quickly. It's been that way for the past four or so years. I don't know when I gained this maturity or skill to understand other's easily. It maybe mainly because whenever someone approaches me with a problem I tend to stand on their position and think about it before I give a suggestion to them. By doing so, I feel good that I gave them a valid and genuine suggestion.
