Thread: [AnimeAdventures Art Thread \[Music, Video, Images\]](#)

SewDough - December 11, 2016, 4:47 am

Hi guys. I wanted to start a thread to showcase everyone's talents in art related to anime, be it original productions of manga, an anime series, music, or drawings / illustrations.

Thread rules are simple.

If you're a contributor, just post your work, as well as your social outlet for more people to view your work.

You can use my submission as an example.

=====

Here's my cover of "Brave Song", from Angel Beats (Instrumental edition).

You can find more of my music on my channel, or alternatively, at:

If you're sharing illustrations:

If they're large works, please wrap them in spoiler tags, and include a link to where we can see more, or download the original work, and somewhere to an artist portfolio!

Even if you're not contributing your own submission, if you like something, let the artist know!

Let's spread some HF love for our talented members!
