Proof he got the BTC:

Deal was my \$38 BTC for his PP (20%). I went first because he had no open scam reports at the time we made a deal and he seemed really legit.

As I can see from other threads, this guy is on exit scamming spree.

Uptown Fuckin Cunt. This was all money I had and he stole it from me. If he replies and pays me back I'll remove scam report.

I never thought he would exit scam. He hasn't been on Skype since.

Use a middleman next time buddy.

Same here. I've talked to him a bit and he didn't seem like the kind of guy that would do it. His skype was on mobile for a few days before/during all of this. I know he's in college, maybe finals are bogging him down or something?

All of these are legit, he just didn't seem like that kinda guy that would do it though.

Use a middleman next time buddy. He seemed 100% legit so I went first.
