Thread: [Glitched Avatars/Sigs](#)

Ronan. - December 11, 2016, 10:55 am

Feeling edgy? If you want your avatar/sig glitched out then just post the following form below.

Code [color=#FFFFFF]Sig/Avatar:[/color]
[color=#FFFFFF]Displacement Frequency (0-10):[/color]
[color=#FFFFFF]Displacement Intensity (0-10):[/color]
[color=#FFFFFF]Colour Distortion Frequency (0-10):[/color]
[color=#FFFFFF]Colour Distortion Intensity (0-10):[/color]

Example:

You need to fill in the form linked in OP :)

Saint - December 12, 2016, 12:16 pm

Sig/Avatar: Sig.

Displacement Frequency (0-10): No idea, but maybe something subtle, like a 3-5?

Displacement Intensity (0-10): Same as above, 3-5 i guess, no idea.

Colour Distortion Frequency (0-10): Up to you, but maybe keep it the colours of the sig.

Colour Distortion Intensity (0-10): Same as above.

Pm me when done please.

Raid7 - December 12, 2016, 12:18 pm

Sig/Avatar: sig

Displacement Frequency (0-10): up to you

Displacement Intensity (0-10): up to you

Colour Distortion Frequency (0-10): 6

Colour Distortion Intensity (0-10): 5

For the colours, if you run this through a greyscale converter, you'll be golden, though it does kill the effect a little.

Sig/Avatar: both?

Displacement Frequency (0-10): up to u
Displacement Intensity (0-10): up to u
Colour Distortion Frequency (0-10): up to u
Colour Distortion Intensity (0-10): up to u

possibly make it blue/red or something cool to fit with avatar

Mays - December 12, 2016, 2:17 pm

please do mine, would look kinda dope with the same background as the board.

Marwix - December 12, 2016, 2:20 pm

Sig/Avatar: Sig

Displacement Frequency (0-10): up to you
Displacement Intensity (0-10): up to you
Colour Distortion Frequency (0-10): 8
Colour Distortion Intensity (0-10): 7

Text: Software Development
Subtext: C#, C++ and Java Programming

Cheers!

The Kraken - December 12, 2016, 2:22 pm

Posting to comeback later.

Thanks for offering the service!

Sig/Avatar: Signature

Displacement Frequency (0-10): Up to you

Displacement Intensity (0-10): Up to you

Colour Distortion Frequency (0-10): 8

Colour Distortion Intensity (0-10): 6

Could you add my avatar in it?

For text "ThatUnnamedWhiteDude" & "Verify me on Keybase" under it.

Thanks OP.
