Want to easily hack a skype account? Can't RAT the person or get support to give you access. Well today I got the best skype hacking method. It works about 8/10 times if set up correctly. The thing that makes this method so great is the fact that it looks like your helping your victim. It is also a very cheap method only for \$7.

~~~~~ Don't judge

Don't think just because I am nobody right now that I will scam you. I have been scammed before and just know that scammers lose the money and you gain something better. Scammers always lose.

If I get a couple sales I will purchase selfy and make an auto buy for better customer experience. Contact me as of right now if you are interested.
