Thread: [e-Whoring Made Simple! e-Whoring help!](#)

G Swervo - December 11, 2016, 6:22 pm

Hey everyone, i'm here to answer your questions on e-whoring.

I'd like to think of myself as very good when it comes to ewhoring, being able to make a couple hundred in a day if I try.

[Here is some proof of some of my earnings.](#)

I was able to build a very good PC with my ewhore earnings in a little under a week. (July 21st - July 26th)

Questions that I know are going to be asked.

Q: Where do you get your traffic? How can i get traffic like you?

A: I use snapchat, very easy to do and if you're posting on snapchat frequently using the same girl in all your pics, people will begin to think you're real, and won't ask for as much verification.

Q: How can I get started on snapchat?

A: [Here](#) is a great guide to get yourself started and to get traffic flowing, remember to change your location to heavily populated US cities for the best results.

Q: Where can I find a pack that looks good on snapchat? (example: taken with phone in the mirror / selfie pose)

A: Here are some great packs I've found just searching the first page. [1,2,3](#)

Any more questions? Leave them below & I'll get back to you!

Spoiler ([Click to View](#)) Don't PM me with questions, please ask them below.

Great, Im new to this I found a pack but what do I do know... Im stuck. I tried doing this over RuneScape or skype, but even when I got my victim what do I do next? When do I ask them for money and how do i do it?

I like to keep it simple and straight to the point. I let them know i'm selling videos, and then i tell them that i'll give them a special price, so they think they're getting a good deal.

I usually start out my conversations with

"Hey, interested in buying some of my videos? (: For you i'll do 3 for \$25"

Do you mass Snap your customers that you're selling pics/vids? Do you post to your story you're selling pics/vids?

I post on my story, but i only leave it up for a few hours every couple days so that all my viewers don't get tired of seeing it everyday.

How many story views did you get, and how long did it take you to get to that number? How many customers per story views do you get?

I have multiple snapchats, so probably like 13k between mine, when I post i'll get about 5-10 customers but they're 90% of the time a sale, because they're messaging me solely to buy videos

edit: thats if i just post on one of them, which i usually do, if i posted on all 3 to redirect to my one kik i'd probably get easily 20-30

DemonKing9 - December 12, 2016, 2:37 am

what app do you use for snapchat?

I use Casper, but however snapchat is handing out temporarily locks for people who use 3rd party apps, so use at your own risk, one of my accounts are currently locked for 2weeks+.

Nice, any other solution besides Casper? I'm using Nox and having a hard time finding a way to upload a profile picture from gallery,

Tipin - December 12, 2016, 1:53 pm

How people find unsaturated traffic? And how can I find one too? I am stuck on traffic ! I know all the basics but the only problem is the traffic

You should be able to drag your pictures you wanna use directly into Nox, then when you go to Casper you click [here](#), it should bring up a second prompt, click "Photo", then it will bring up all your photos on Nox.

How do I start a conversation as well as ending it when they try to buy? Could you give some example or send pics of a successful convo?

I like to keep it straight to the point. I tell them i'm selling before they even message me, then when they message me i'll reply with something along the lines of

"Hey, interested in buying some videos? (:"

Then I tell them my rates, how they can pay, & then how i deliver them.

When I end the convo, I just tell them to let me know if they wanna buy more.

Sometimes i'll message them back in an hour or two and ask them if they liked it, and sometimes it'll get them to buy more.

i'm not entirely sure how to do that tbh, You could try taking a picture of your monitor if you can get it clear enough

Malhai - December 14, 2016, 10:52 am

Hey Alex, could you me a little bit, on how to detect if someone is e-whoring, without making it too obvious.

I'm very new to this and I would like to know, without them thinking I am suspicious, if they are e-whoring.

Wre©ked - December 14, 2016, 10:57 am

Question: When posting a story and stuff obviously you wouldn't take it directly off your phone so when you upload it to your story wont it say something like "uploaded from Camera Roll x amount of hours ago" or however long ago you saved the picture.

Do people question that or just ignore it?

Kitteycat - December 14, 2016, 12:51 pm

nice guide tho ^^ if you want to, you could get into our discord group ^^

Do people question that or just ignore it?It only does that if you post it as a memory from snapchat. When you use casper it'll post the image to your story as if you took it with your phones camera

How do you start a conversation?

The good old: "Hey hun, interested in buying some nudes? :*" seems to scare away even the potential buyers :/

Thats one of the good things about using snapchat in my opinion. I post on my snapchat that I'm selling videos and to kik me ONLY if they're interested. Then i just dive right in with my sales pitch when they kik me.

However, when I use to use the old kik traffic sites, I'd talk to them for a bit and then tell them I'm needing money and I'd mention something specific, whether it be a phone case, sex toy, college books, anything works.

That's really interesting mate.

Hello lately I'm doing ewhoring in snapchat and many guys hesitate and ask me more questions because now when I upload a photo gallery to the story, it appears that it was uploaded from gallery and I want it from camera and 23 hours ago since uploading it to The story, and actually it was 1 minute, or the time that took the picture in the phone

For all that I am told that if I do not upload photos at the moment that I am cheating, etc ...

Does anyone know any way to upload a photo and upload it now and from camera?

Thanks and best regards to all

You're uploading it as a memory,

If you use casper then it'll upload it as if you took it from your camera, but use it at your own risk as Casper can temporarily lock your account, starting at 24 hours.

nakama30 - February 2, 2017, 8:59 pm

sorry for bumping a relatively old thread but i'm wondering if you have any tips in regards of promoting cpa offers like what offer u've had best results with and how do you get people to do them?

Flytino - February 3, 2017, 11:20 am

Thanks alot brother, really helpfull

::Thunder:: - February 4, 2017, 6:58 am

Do you still do Snapchat ewhoring mate?

Did you also sell pics and do CPA?

affluence - February 4, 2017, 7:20 am

Well since it has been bumped...

When story posting, logging out, and logging into the actual snapchat have you found a way to help the story views appear? I had a 1k account become disabled/deactivated/blocked whatever and often times it would show no one has viewed while the snaps/messages roll in.

Out of all these sfs baddie/amateur snaps that you see, how many that are advertising on those do you feel are actually ewhorers? rough guess.

rix70 - February 4, 2017, 7:38 am

where do you find all the customers? and how do you get them to acctuly buy vidoes/pictures?

Posingfordaddy - March 27, 2019, 2:44 pm

What is a good client haven't been around since snap++ stopped being updated. And snap upped their banner
