Thread: [Which Money Making Ebook Is Right For Me? \[INPUT NEEDED\]](#)

Butte - December 12, 2016, 2:42 am

Hello to all HF members. I hope you are doing well as you read my post. As you can tell by the title I am in search to purchase a money making ebook. We all read the same ebooks promising us that we can make 6000 in a month or even over night lol. I'm looking to skip past all the BS and be pointed directly to the best ebook for me. I'm ready to invest my time in the method as long as it's legit. Also ready to buy... Looking to have an ebook that doesn't require a \$ investment however. Any input is welcomed and appreciated. Thank you HF. ?

Got an a METHOD for you. Check the sig below. There is a \$5-10 investment but TONS of profit can be made. Let me know if you have any questions.

Don't go for ebooks mate! I am a seller myself and I dont prefer ebooks. most of my products are either money making softwares, mentoring, or video training.

Please don't buy ebooks, maybe the ads looks really promising but 98% do not work. I bought a few and I never made a dollar from them! You will get disappointed if you buy one please be aware of this! Good luck :)

This is the type of question I find very tough to answer, because there isn't a "one method fits all" type of thing here. The method that can be found in both Academy Awards and my sig is pretty legit, so I'd recommend you go and check that out. But please don't expect instant success, the amounts of money made that can be seen in these advertisements say "make UP TO" for a reason: it'll take some time and effort until you properly get started.
