Kanye gets weirder and weirder every time I see him, what is with this guy? Hanging out with Trump really just doesn't seem like something he'd do, why is he with him lol?

He's going through a mental break.

What's wrong with Kanye West?

Will he survive this latest test?

Find out next week on Living With Illuminati.

I think that was justified. It was 4am and those fucks were all in his face.

I understand it's their job but give the guy a break you know?

I'm just glad he isn't dead ever since they took him in for psych ward for evaluation.

I agree, he's a great artist in what he do both fashion and music wise, but he probably needed to be
taken away from it all for a little bit.

It was starting to get wild with his rants.
