Thread: [Amazing Free Resource for Cyber Security, Linux, & IT Topics](#)

Perceptive - December 13, 2016, 1:02 pm

Hello everyone!

So I just came across this website which is amazing for learning about Linux, Cyber-Security, and other IT related topics.

I thought I'd share it so others can learn about these topics as well.

<https://www.cybrary.it/>

It's completely free!

CichyCichoCiemny - December 14, 2016, 12:15 pm

Looks cool.

?

memory - December 14, 2016, 12:15 pm

Going to take a look at this now, thank you.

The Kraken - December 14, 2016, 12:19 pm

posting here to comeback later,
thanks for this!

memory - December 14, 2016, 1:15 pm

Just took a test on their website. This is legit! Real way to actually prepare for certifications / boost resumes.

sneakerplaya - December 14, 2016, 1:54 pm

Thanks for sharing! Nice find! I definitely bookmarked it!

thederivative - December 14, 2016, 5:38 pm

I'm a senior member on cybrary and I can vouch for it. The community and the mentors are amazing people. I actually run the college students group if any of you wanna join or fit the criteria. Hope to see you there.

jethedreamer - December 14, 2016, 11:45 pm

Is this a legit website??

Tragedy Strikes - December 15, 2016, 8:40 am

Wow this site looks promising and has a lot to offer. Thanks for sharing.

aesthetiic - December 15, 2016, 10:41 am

A member of Cybrary myself. They also have an app. :D

Super useful site with a lot of information on most topics, you can get certificates from the things

you do, and as ?????? said - a great way to boost your resume.
