If I were to ignore a member does this prevent them accessing my profile including the reputation page?

Just curious, thanks.

No. The only thing they can see is your rep page.

NinjaLeaks - December 13, 2016, 4:16 pm

Not sure but I think It blocks them from seeing your profile only. They should be able to see rep.

Yeah, I was just wondering, I'd be mad if an ep1c negged me then I couldn't rep back.
