Favourite death metal hmm....

Probably my top 5 (in no particular order):  
The Project Hate MCMXCIX - The Cadaverous Retaliation Agenda  
The Monolith Deathcult - Trivmvirate  
Dominia - Judgement of Tormented Souls  
Opeth - My Arms, Your Hearse  
Amorphis - Under the Red Cloud

Opeth - Hard choice for favourite albums. Love Orchid and Still Life.  
Enslaved - Isa, Below The Lights  
Acid Bath - Paegan Terrorism Tactics (One of, if not my favourite, of all time)

All 3 aren't pure Death metal more so a merge of genres, especially Acid Bath. I don't like obsessing over what sub-genre these are, to me I just call them death ?

In The Mist She Was Standing is even better imo. In general they have their own style of Death Metal, less blast beats and more melodic.

I like the acoustic sections quite alot tbh. if you're also a fan of acoustic work listen to Voice Of the Soul.

I really don't like death metal to be honest.

But I am a huge metal fan overall, I mostly listen to Iron Maiden / Skid Row etc.

Can't lie, I wasn't fond of Death metal at first, but then i found Obituary and Death.
