They go pretty in depth with the plans and they also have decent graphic design skills. I feel like after this purchase I am much better off starting my business and growing it safely!

For the price I thought it was good. I don't really know much about how much a business plan would cost but for the amount of detail and effort put into this plan I felt like the price was reasonable. I'd definitely recommend you buy this if you are making a business or just need a little help.
