It's 100% anonymous, and you get your money's worth, I have been selling these for a year now with vouches on various sites, just spreading my business. Thank you!

After talking to this guy for a while I asked for proof of sales, he linked some site with a sales thread and said that was him so I added the guys skype off of that site just to make sure it was legit and he had no clue about this thread, deal with caution.

If your giving out a vouch would gladly , write a detailed review. As I highly doubt someone will throw you \$300 btc like that.
