What on earth is warez?

This was not received illegally, it was purchased. It's not warez

Doesn't mean that you can distribute them for free.

What are you on about?

Still unsure to what you're on about or what warez is, but i've brought these and giving them out to a selective few, these were purchased for a companies online commercial video + teaser photos.

There is nothing that indicates that I'm not allowed to share these when they were purchased, it's not warez.

Stop bashing on something I'm providing for the community, staff can remove this if they feel i'm not allowed to share.
