Tried using common stubs? Here I got something for you. This service will provide you unique and private macros for Word and Excel 2003-2016

Features:

- Every build is 80-90% unique
- A lot of build variants
- FUD time duration depend only on user
- Fake error message
- Zone ID (ADS) Remover
- Customizable
- Small size
- Files are fully editable (no hidden data stored in document)
- Code are generated by my metamorphing app

Scan proof:

Price: negotiable

You are paying only per build. I provide macro code, not builder!
