Thread: [Paying 10-15 dollars for a logo and icon logo](#)

wanbetaaler - December 15, 2016, 7:16 am

Hello,

I am looking for a logo for a motor scooter company, I will be paying 10-15 dollars for it.
Some background information about the company.

It's a company that buys and sells motor scooters they even deal in cars.

its company name is: 't Zand

website name will be: tzandtilburg.nl

the company is stationed in: The Netherlands, Tilburg

website colour will be probably mainly blue

they sell motor scooter brands like:

Gilera, Aprilia, Derbi, MBK, Peugeot, Piaggio, Polini, Sym, Vespa and Yamaha.

They do import and export.

for more information please pm me.

Colors of the logo and icon logo is at you to decide.

I will pay more than the range if the logo is amazing.

Hey buddy!

I'd be more than happy to make you a custom logo if you happen to raise your budget. Otherwise, your best bet is to probably use a pre-made logo or use some type of logo creator software.

It really depends on the type of quality you are expecting. I decent logo would be upwards \$45+

But a professionally designed one, a lot more. (<https://99designs.com/logo-design> ;
