err...where I have posted I was on about MY warning.. You'll get hit with a warning for this probably. .I got 20%.. when you hit 100% you're a ghost..If you look where my Rep number is..you will see "warning 20%"

Peas - December 15, 2016, 2:08 pm

As others have said... pretty sure this kinda discussion isn't allowed here

No he won't. Others (non staff/mod) can't see your warning level. Only their own ?

No worries, and I may have it slightly askew. l337s and ub3rs might be able to see them as well, but I don't think they can tbh.

LS RX7 - December 15, 2016, 3:08 pm

So I read the rules. didn't see anything about this?

Maybe the wrong rules? I was gonna post the link to the "rules" I read but I can't post web addresses.

On the rules page, there is a link to ["Disallowed blackhat activity"](#). If you follow it you'll find:

Quote:Deepweb is a phrase to describe hidden websites on the internet that are often, but not always, directly related to illegal activity such as child porn, carding, hitmen, and other very illicit material. As such we're not going to allow it here. Not even the slightest discussion of the deepweb will be allowed.

JUSTIN - December 15, 2016, 3:15 pm

As everyone else is saying, DW discussion is forbidden.

Regardless, a google search will teach you how to access it. No idea why you had to make a thread.

LS RX7 - December 15, 2016, 3:36 pm

Oh wow I didn't realize it would be under black hat.

As I said I don't trust what I found on Google. Guess I shouldn't trust anyone here either!

Not true. I can see warning levels and why they were issued and by who. It isn't a staff only privilege.
