Violet Evergarden

Synopsis:

Spoiler ([Click to View](#)) There are words Violet heard on the battlefield, which she cannot forget. These words were given to her by someone she holds dear, more than anyone else. She does not yet know their meaning.

A certain point in time, in the continent of Telesis. The great war which divided the continent into North and South has ended after four years, and the people are welcoming a new generation.

Violet Evergarden, a young girl formerly known as "the weapon," has left the battlefield to start a new life at CH Postal Service. There, she is deeply moved by the work of "Auto Memories Dolls," who carry people's thoughts and convert them into words.

Violet begins her journey as an Auto Memories Doll, and comes face to face with various people's emotions and differing shapes of love. All the while searching for the meaning of those words.

Trailer (just beautiful animation):

Apparently this is something that's in the works. There is no confirmed date of release as far as I am aware, however I saw the trailer and the animation just looks gorgeous, and the OP is really pleasant. Can't wait to see this come out eventually, so this is just a heads up to keep AA aware ;)

I saw this thread and it got me excited because I though I missed it on the next season airing, but you just got my hopes up.

After seeing the PV I am super excited.

Yea looks great, but I won't let eyecandy overlook overall quality of story, characters, etc., yet it looks like it has a lot of potential so will be a definite PTW when it comes out ;)

I'm legit hyped for this anime.. The animations.. The Waifus...

I'm excited for this. Visuals and animation look so good.

DerMensch24 - March 26, 2017, 9:41 pm

Update: New preview video was released, still no confirmed date (hopefully soon though!). Here's some more info from a thread on MAL:

Quote:Violet Evergarden is an animation project by Kyoto Animation that adapts the light novel written by Kana Akatsuki and illustrated by Akiko Takase. The novel won the grand prize for the fifth Kyoto Animation Award in 2014. Taichi Ishidate (Hyouka) will helm the project.

For anyone curious: the rough translation to what she says is something along the lines of "I will run as fast as I can to wherever my customer desires. I am the Auto Memories Doll, Violet Evergarden"

DerMensch24 - June 17, 2017, 8:13 pm

Update for everyone: Final PV has been posted:

The anime will officially be airing in Winter 2018, I'm very much looking forward to this ;)

Name without reading the synopsis kind of sounds like some softcore hentai; I still haven't watched any of the currently airing shows because I'm waiting til they complete so then i can binge watch the full series. Watching 1 episode at a time is a drag

Ye I only ever watch a few series as their air, but this one was announced a few years ago and now its finally being released, the animation looks amazing, I'm just hoping the story complements it.

Yeah, I would love to read the original novels first, but they don't have an official English translation and I don't know enough Japanese ?

SkullCandy - June 18, 2017, 8:15 pm

Looks beautiful; it seems to be based off of a pretty obscure manga - with only 77 people having rated it and 0 people having reviewed it. All the ratings for the manga seem to be good, so hopefully the story is solid.

The only recommendation I can see is that the premise is similar to Iris on Rainy Days if you have read that - so I have high hopes for the story and damn that animation <3 Should be a formula for

SUCCESS

I'm so beyond hyped for this show to air. It's going to cause a stir if it ends up sucking because of the universal hype it has.

Lol ye, that's the only concern I have atm haha, but that animation is some of the best I've seen so far.

Bumping this thread.

This anime will be airing around January 10/11 this upcoming week, be sure to start watching! ;)

I updated the synopsis with the most recent one from MAL.

However it appears to be an episodic anime involving an automaton going through many different people's lives and struggles. Been excited about it for a year at least now, and the animation looks incredible.

Will have to give it a watch now, but I always like to give everything a chance storywise as sometimes it takes a few eps to unfold. Without a doubt the animation is top quality though

Just watched the first ep, the story wasn't what I was expecting but still fucking amazing. The animation too is just too damn beautiful.

Professor Pantsu - January 11, 2018, 5:54 am

It was good, wasn't anything above my expectations (at least from the first episode) but still good. Although I feel like all the hype it got is going to do it a disservice and just cause it to be shitposted

by kyoani haters even harder when it isn't the next kimi no na wa. They're really going ham with those filters though, not that I dislike it but damn.

Ye probably, but fuck 'em, I'm just glad that my entire year of waiting for this was worth it so far. My only concern at this time is the direction that the story is going to go. Initially I thought it was going to be something similar to Mushishi where its a sort of slice-of-life episodic anime, and it does seem that it might be setting itself up for it, however with the dark undertones and flashbacks I don't think that will be the direction. I'm just hoping that its going to be more than 12 eps ^-^

edit: just found out its only 14 eps :/

Lol, somewhat similar design but not related whatsoever

That animation could save me from the eyeball cancer that is this SF.

DerMensch24 - January 18, 2018, 1:54 pm

Ep 2 not too shabby so far. The anime needs a few more eps to get the ball rolling I feel however. Also not a fan that Netflix has exclusive rights over streaming it atm

Ye, nice to finally see some story progression

DerMensch24 - February 15, 2018, 2:11 pm

Ep 6 was pretty nice, I'm hoping this is the start of how I originally perceived the series to be where its a bunch of episodic somewhat-slice-of-life-esque storytelling

ankitkhosya - February 15, 2018, 8:26 pm

I saw the first episode and could not wait for the rest of the story so read both the novel volumes. Pretty good novels but anime of course could not adapt all the scenes so it seems lacking the developments in violet's emotions and how she becomes human cause god damn! she was boring .

This one will make you wail real hard in tears once you begin to get along the story. The show is being released in a weekly episodic manner on Netflix, you can watch it online now. 8 episodes are out by now, you can wait for the whole thing to end if you want to binge watch it in one go.

Episode 9 was released, and it was quite good.

Spoiler ([Click to View](#))

So.. she found out. The full backstory behind Gilbert and Violet's final moments was touching. How she recouped herself back into reality from the suicide attempt was portrayed really well too. Finding happiness for herself through others' feelings can be a tad bit unnatural, but finding happiness for herself through what she is slowly learning to love in doing is what I find really heart-touching.

?????? - March 8, 2018, 3:48 am

I just finished catching up (7,8,9) and I really love little 'war' Violet. There's something really charming about watching her cut down those enemy soldiers. The art hasn't let down once so far, and the music is great with it.

Niban - March 8, 2018, 5:17 am

I think the anime is great but i think there is something missing. Another story line besides the main one... maybe. What are your thoughts about it?

Was a good ep, very emotional indeed. The anime seems to finally be settling down into a good pace.

DerMensch24 - March 30, 2018, 2:49 pm

Latest ep was decent, some nice fight scenes, but sadly I've given up on the anime being coherent to how it wishes to tell the story, its jumped around too much between action/chronological war drama and slice-of-life/episodic

I'd kill for a series that focuses on Violet's war exploits.

I think the series would've benefited more from the series giving hints about her wartime past but focusing first on the slice-of-life bit that it was promoted as, then have a few ep OVA released detailing the war story arc instead of throwing it in the middle of the series like they did.

Yeah, I think that would've been a good way to go about it; 12 episodes with 2 or 3 OVAs. Although, I did go into this series not knowing anything about what it would be about, I was just mesmerised by the art :P At least it has paid off for me, I've been enjoying the series quite a bit and it'll be a shame when it's over.

Without a doubt I agree, some of the best art and animation I've seen on KyoAni's part. Its been an enjoyable series though, I'll probs give it a 7 or 8/10 depending on the last ep but the way they've been doing the story has been a detraction from me sadly. I guess I've seen so much that I pick up these sort of points.

DerMensch24 - April 5, 2018, 7:03 pm

Finally finished it. Last episode was one of the better ones. I think a respectable 8/10 suffices for a score, great animation and an interesting story however as I've aforementioned in above posts the structure of the anime could've benefited much better with a separation of the present timeline with the past (some flashbacks would be acceptable but a full length ep or 2 somewhat derails the story progression). Nevertheless it was enjoyable.

Professor Pantsu - April 8, 2018, 12:05 am
