I'm like, 20 days late with this but here are some pics I took on 26th Nov during AFA 2016. Bunch of figurines on display, PPAP came, and there was a booth showcasing the new SAO movie.

Since the photos are large af I'll just drop the imgur album here.

Nice share, I'd die for that Saber figure in the first photo.

Maybe resize the images in imgur? It's almost impossible to see unless you zoom out to 10%.
