Thread: [Upgraded account to L33t, still normal user](#)

BapeZ - December 17, 2016, 5:27 am

Hello guys,

really don't know in which category I could post this. I just upgraded my user account to L33t but nothing changed. Here is the transaction ID of the payment: blockchain . info /tx/012e94276b3459a40842757fe5b5f77d275b4aa54640ef685a79716dfdfd18f7

Because I have only 20 posts I can not message the admin, so I try now to get help here. Thanks!

It takes a little bit for it to kick in. Be patient.

This process isn't automatic, it can take up to two hours.

kookur - December 17, 2016, 5:28 am

Just wait dude, you will get it soon.

The process is automatic. The transaction needs confirmations.

Elitas - December 17, 2016, 5:30 am

Takes a couple hours, give it some time lol.

You should be granted your upgrade soon, it could take up to 24 hours.

Multi is multi.

That's for everything when using btc, retard.

Holy fuck people got egg heads.

Multi is multi.

The process is automatic though, it just takes a bit of time to go through.

Yes, but you need to know that omniscient has to approve it. Well, that's what I think.

You seem to know that as well and you are not upgraded, clever right?

Because I've seen multiple threads about this. Clever, right?

My bad, I am a bit off a jerk.

Quote:I paid for membership, how long till my account is upgraded?

Typically within 2 hours. The process is automated when enough confirmations for the crypto currency has been made. Do not inquire via PM or create a support thread until at least 24 hours have passed. Include your transaction ID.

Such as randomly posting to point out people increasing their post count whilst increasing your post count.
