Thread: [Compilation of Basic Tagging Tutorials](#)

.Astro - December 18, 2016, 4:12 am

These aren't made from me but these are some old tutorials that I remember being posted on here from before and I felt they helped fairly well to those still learning and getting down the basics of tagging.

Enjoy ~ ? Credit goes to the original authors.

Very nice tutorials you shared, thank you for that.

I assume you are one of those wanting to bring back tags?

Guess I'm gonna have to make a tag or two when I get the time haha

I wouldn't say I want to, but I do want to bring a bigger variety of graphics to the sub-section rather than just thread designs, a signature here and there, and some random logos.

I too wish to see a larger variety. Maybe someone should round up some designers and host weekly graphics contest each with a theme and style.

#TagLyfe

OP: Good share fam. Never too many tutorials floating around.

xatCodySmith - December 22, 2016, 6:21 pm

Thanks for the share man, tutorials really helped!

?ether - December 23, 2016, 3:58 am

thanks for this man, ill be sure to use these haha

rudel777 - June 13, 2017, 1:29 am

Very nice info thanks for that
