huh i will be making 10000k dollars day on autopilot if i give you 40 dollars?

why you say "5 min easy instant set up" with "100 full written pages". you mean i will read 100 pages in under 5min and still have time left to set up the autopilot to have 10k/day? huh

you gave 0 tips about it your ebooks, "methods that never become saturated" okey. nothing lasts forever, especially good money making methods, what if i know these methods already? why not say whats inside? why would i buy it if i know it?

also what are the refunds requirements?

No, but thats not to say that he won't start.

Now I'M not saying he would since I don't think he wants to ruin his rep, but you never know.

Again, its quite obvious that really "HIGH QUALITY" members scam smaller members easily because they're known as "HQ" to all of the forum. Its happened before. Remember the Anonymous scandal? The guy scammed over 75k from HF members before he was permanently banned.

jk, clickbait as fuck but yeah glws. I'm sure people are making close to 9000\$ a month maybe more, with little to no work.

CRYP7 - January 1, 2017, 3:47 am

My review:

The 1st method is not new or amazing, but it can yield you a good profit. It is however saturated (or becoming saturated) in US/UK/Canada (three markets I sell in).

2nd method is known and saturated.

3rd method is known and somewhat profitable, but slow.

4th method is VERY slow, but you can see large profit when you eventually build up.

5th method is known and saturated.

6th method, slow, but runs on autopilot once you've setup.

7th method, slow and only for those into basic level trading.

8th method, known, not saturated. Good profit, but slow.

9th method, old, I have done this a few years ago and made \$300 profit in a few months then stopped. Good method with some marketing variation nevertheless.

10th method, very old, only works for those in US. Part of the method is also broken and has been for months! I don't know why it is still in this ebook.

Overall, this ebook pissed me off quite a bit. There are 173 pages (even tho the last page says it has 158 pages in it... seriously needs updating!), and the font size is massive (almost 30pt). There's a lot of waffling. There are some blank pages. 40% of the ebook is unwanted advice, bonus

methods which he has reseller rights to, etc.

Was this ebook worth \$79.95? Heck no.

Is this worth \$39.95? Hm, I'm struggling to say yes.

The quality of the ebook itself is poor and needs a tonne of refinement. If you're going to sell such a book with so many sections, at least utilise the chapters feature for PDFs. Stop using 30pt font, we can all see 12-14pt! Check your spelling and grammar. Keep design consistent and clean. Align content properly, don't just throw images onto your document.

It's not a shit ebook, but it's not good either. It's better than the 95% of bullshit on this forum, though. All methods are clean, and there's no grey/blackhat bullshit.

P.S. my review is honest as fck. I hope it benefits others and makes the seller rethink a few things for the better.

P.S.S. the thread title says "little to no work". It is not "little to no work". To make \$9000 is a LOT of work, at least using all these methods.

9th method, old, I have done this a few years ago and made \$300 profit in a few months then stopped. Good method with some marketing variation nevertheless.

10th method, very old, only works for those in US. Part of the method is also broken and has been for months! I don't know why it is still in this ebook.

Overall, this ebook pissed me off quite a bit. There are 173 pages (even tho the last page says it has 158 pages in it... seriously needs updating!), and the font size is massive (almost 30pt). There's a lot of waffling. There are some blank pages. 40% of the ebook is unwanted advice, bonus methods which he has reseller rights to, etc.

Was this ebook worth \$79.95? Heck no.

Is this worth \$39.95? Hm, I'm struggling to say yes.

The quality of the ebook itself is poor and needs a tonne of refinement. If you're going to sell such a book with so many sections, at least utilise the chapters feature for PDFs. Stop using 30pt font, we can all see 12-14pt! Check your spelling and grammar. Keep design consistent and clean. Align content properly, don't just throw images onto your document.

It's not a shit ebook, but it's not good either. It's better than the 95% of bullshit on this forum, though. All methods are clean, and there's no grey/blackhat bullshit.

P.S. my review is honest as fck. I hope it benefits others and makes the seller rethink a few things for the better.

P.S.S. the thread title says "little to no work". It is not "little to no work". To make \$9000 is a LOT of work, at least using all these methods.

Finally a real fucking review, none of those people just going:

OOH I VOUCH FOR THIS MAN LOOKS REAL NICE

OH LOOK AT MY FAKE PROOF!!! WOW, I MADE THAT IN 10 MINS!!!

VOUCH FOR MY DANK OG BOY HOMEDOG

VOUCH GOOD LUCK WITH SALES MIGHT BUY LATER

It's all BS and honestly all the people doing these vouches are fucking scumbags and just as bad as scammers.

I've purchased a few ebooks like this in the past from members as highly esteemed as you, but so far none of those ebooks have turned out successfully for me. Do you have any sort of refund policies? Or can you guarantee me profits perhaps by mentoring me? Willing to pay extra if you would be willing to work through this with me.

The methods in the guide don't need mentoring to use them and i'm pretty busy nowadays with multiple offsite projects so i wouldn't have time either way, However i can answer your questions if you need help on the methods if you end up purchasing. As far as refunds go i'm just going to go ahead and so no on any refund policy just because people will buy ebooks sometimes and ask for a refund right away just so they can get the product for free. I'd rather not go through the hassle, I don't sell shitty 1-2 page guides, All my guide are long and detailed and i've put a lot of work into making them and have multiple methods to choose from. As long as you're willing to put some work in then i don't see how you won't earn. Even using 1 method will net you good results.

The no refund policy makes me a bit paranoid. I've been suckered into these methods in the past and sadly out of the 8-10 ebooks/methods I've purchased (Some \$15, others \$400+) and none of have worked out. I think I have to find my own niche I really don't care to risk another one of these

I'll throw a vouch towards you on this one. Bought the product and just started to work on it. Not seen results just yet but it does require a bit of effort at the start. (Would also recommend having a little cash to one side for this!) The method is good and if you do it properly is easy to make a profit!

For the money you invest it can easily reward more! The guides that this came with are perfect and will be used in the future even if this time doesn't work out! Thanks again H3, overall a great product and looking forward to see what you bring out in the future!

Plus, my past experience with online job was bit disappointing with somewhat false promises. So it makes me skeptical as to immediately jump on board...

To sum it all up the business blueprint guide shows you how to create your own online business and
profit from the business. There are also bonus methods which do not require you to make an online
business. Everything in the guide is step by step and i give videos/pictures just in case you get stuck
with the method. Works worldwide and you can use any payment processor and there isn't an age
limit.

Just read the ebook since it's finally the weekend and i finally have time. Interesting content never really thought about this these types of unique methods.

Cptturdballs - July 29, 2017, 8:39 am

bought the thing, was asked to post here, posting here,now sending an emai to finally receive what i payed for i guess....

still waiting....no response, i payed 40 bucks to receive a TXT file i should post in this thread

soiledghost - July 29, 2017, 12:48 pm

just ordered... now waiting to receive...

Cptturdballs - July 29, 2017, 2:47 pm

received it but man, what a joke, some noob marketing stuff....

You should rename it to "how to work as an ant for real online businessmen" it would suit this ebook more.

It's fun ye, if you're 16.

waste of money, well, ... moving on,
