Thread: [VB.Net Chat For Beginners And Advanced Users](#)

Xogg - December 18, 2016, 8:16 pm

New to vb.net, or a advanced member and enjoy speaking to other developers.

I have started a vb.net chat for all people to join(yes i know there is another one.)

Goals of this chat:

- Help new vb.net users learn the language
- Have advanced members teach advanced things to one another

To join the group contact me on skype:

Is it possible for me to join? I'm a new-ish programmer and would greatly appreciate any help.

You should make it a discord instead. Skype is lame. I'd totally join if you made it into a discord.
