Thread: [BustaGod | The free 4\\$ script!](#)

Baitable - December 19, 2016, 12:08 am

Hello everyone,

<https://hackforums.net/showthread.php?tid=5492574>

turns out to be a FREE script, but sold for 4\$!

<http://giantmania.de/index.php?q=aHR0cDovL3Bhc3RIYmluLmNvbS91RWlyVzRYVg%3D%3D>

It was uploaded in October 17th!

And, as you can see, it's also a giveaway :o

Code Hello ,

Thank you for purchasing BustaGOD

Get the script from here <http://pastebin.com/bfhf43w4>

Be sure to change values such as basebet and multiplier, 1,2x is good. Be sure to withdraw soon and give your script breaks.

Contact Fargo on HF for help and support

Be sure to read the terms!

And the pastebin seems to be the exact same script!

The rights to the script are also being sold!

What rights? You don't own it?

Anyway, the update might be coded by him, but so far he has earn't 200\$ from a free script, still kinda scummy :/

Anyway, have a nice day!

V?rt - December 19, 2016, 12:13 am

Damn, everything is the exact same... I wanna see where this leads to...

Frankey - December 19, 2016, 12:13 am

Everyone who bought it REFUND!! Just kidding. Lets just wait for an official response from the owner seller here on HF ;)

Juicy - December 19, 2016, 12:15 am

Lmao, and to think I almost bought resell rights.

NyQuil - December 19, 2016, 12:29 am

wrote him today on some info about it, almost bought it till I seen the resale thread myself as well so figured i wouldn't.

Nyxuo - December 19, 2016, 12:40 am

This is the same script someone just gave me for free with a different name on it.

Baitable - December 19, 2016, 12:42 am

Yeah, you almost got ripped for \$50. Glad someone caught this.

Looks like Fargo/Turbot changed his name and sold resale rights.

Scummy scammer.

You can check the script out if you want. It has been updated and is not the old one. Just to let you know, and also next time you deal with me dont refuse to use a middleman if I won't go first lmao

Bravo man, what an update!

Oh and I don't do deals with scammers, sorry!

People who believe in bustabit scripts should slit their wrists lol.

Anyways, I think only a small portion of the scripts sold on HF are actually custom.

Pretty sure the majority of them are public

Eladictococy - January 10, 2017, 4:22 am

Hate this bustabit. Satoshimines primedice etc are a lot better.

Motusora - January 10, 2017, 4:25 am
