We're all a bit ignorant before trying out new anime. Always have to keep that open mind though.

If there's one thing I learned from being in AA is that, unless an Anime is really not your style (for instance, I can't handle old stuff, pre 2010-era), the recommendations given on good shows here are usually pretty accurate.

What's wrong with the old stuff?

yea, everyone here has amazing tastes. Plus even the fanboys of certain anime are honest about what they liked and didnt like :)

ive gotten some god tier recommendations for anime that opened my eyes to new stuff, even after i though i'd seen everything that could have been considered "god tier"

Thats why i love this section and everyone in it. ?

some people dont like the art style, or just the habits of old animators. I think it varies :)

I don't know. It have that kind of "old", nostalgia feeling that I don't get because I didn't watch them when I was younger. It's hard to explain. I tried to watch a few old Anime (Full Metal Panic!, Groove Adventure Rave even though I read the Manga when I was younger and it's the shit, Phantom: Requiem for the Phantom, Rosario to Vampire, Tenjou Tenge and Chrome Shelled Regios to list a few) but I don't know... I just can't get into them.

I'm sure they are. I know most of them are classics and I would never talk down on them. Like Cowboy Bebop and Jojo but I just can't bring myself to watch them.
