Mr.Peanut - December 20, 2016, 3:50 am

Imao00 this list is something else. So many members behind the scene you'll never even see. Not doubting any of the members on this list but if a member from this list disagrees with me, they don't deserve to be on your list.

I guess you don't know half of those members you posted nor what they have done in the past... Only sketchy people on the market list are scorp and nex + maybe? Also this is very very rough draft

and the HQ market poster's are only there for there products thats it... the products and the support they provide ...

test - December 20, 2016, 3:55 am

I think you forgot Spooky Hacker from that list.

Mr.Peanut - December 20, 2016, 3:56 am

I love how a lot of HQ members posted on this thread, I was expecting regular members. Not that I have anything against regular members.

Define a 'HQ' marketplace poster? Jesus fucking christ, what is wrong with you.

Honestly most of you are cool. It would be better if i made a cancer list ?

I think it might have been a lie, I think he's inferring we're LQ loungers.....

SumoWrestler - December 20, 2016, 4:09 am

Don't forget about minimalist for middleman

Korvo - December 20, 2016, 4:37 am

Hmm..Is someone trying to kiss ass and get outta the negative rep?

However I do agree with you, those are some pretty chill members that I've seen around..But I'm sure you did forget to mention a whole bunch of people, as there are plenty of others who make this place a great forum.

minimalist - December 20, 2016, 5:00 am

Most of the user's you posted under the marketplace section of your post are scamming e-book sellers. Most of the people you posted under the "HQ policy" section are unaware of what they're talking about. I'm not going to say that I should have made the cut, but how is H3God on this list?

Mr Reddington - December 20, 2016, 5:02 am

What about the user "Ninja" , don't know what he is like in other sections but in the coding section he helps out most people and knows what he's talking about. Kind of keeps the coding section a live with a handful of some other guys.

EDIT:

Also for the coding section there is user "+Haze" , he's been known to help people out and knows his stuff. But have noticed if you ask a dumb question or basically asking for someone to code the program for you he will have no issue ripping into them haha

Oi I'll have you know I'm super HQ when it comes to policy.

Oh SJW God made another list

This dude is like a can of Spam... Red and Salty...

Armada - December 20, 2016, 3:37 pm

Interesting how the same person complains how terrible the entire community is, but can make a thorough list of "Good" members, but only a hand full of others that are destroying this robust community so greatly. ?
