You sell a RAT that someone else coded fine whatever

SGD God? More like SJW God, with yo triggered ass

Are you just mad that you got colon cancer for letting a bafoon stick its dick in your asshole?

The people you have listed today are just some people that negged you, you just dont like being criticized because it happens to your insecure, punk ass pussy self in real life, its common sense, treat others the way you want to be treated, so go soak up your red with a cotton rocket and move the fuck on

Coward

Note: I respect a lot of the people on your "list", and i dont care if you go all trigglypuff on me, get a life instead of insigating shit on an internet fourm you basement dwelling twat

Zekra - December 20, 2016, 2:09 pm

The fact you didn't have the effort to embed the profile links of each user makes you cancer as well.

Vitani - December 20, 2016, 2:13 pm

While I do not agree I understand why you put most of those users on the list.

I don't get why Armada is on there though. In my opinion this is an upstanding member who didn't do anything majortly stupid or anything.

Feel free to elaborate.

Who Soup - December 20, 2016, 2:15 pm

May I be added to the "borderline cancer" list or is that against the rules to ask?

Mr. Corleone - December 20, 2016, 2:16 pm

What do you think to achieve with this list?

Vittorio - December 20, 2016, 2:17 pm

Pow3r - December 20, 2016, 2:20 pm

Banned multi with a vendetta against me and others it appears.

I do however thank you for the input.

It gets very tiresome at times constantly defending a position when you just try to help so many others.?

Hmm that would explain his trustscan and this thread.

Very true, though don't worry much about people like OP. They can not ruin your reputation, only you can do that.

If people stop believing things others tell them and do their own research they will know it's BS.
