Hey guys I'm currently on season 4, midway. Wanted to know if it gets better.

I love this show so much but the ending kinda kills me but to answer your question the show just keeps getting better in my opinion.

What I remembered about the series. It stays pretty much the same "kinda good" in a good way. At the start, I was like.. pff so many episodes and at the end, I was really sad I already finished it.

It's a little slow but by next season it should get better :p

It always gets better each season. However the last episode kinda ruined it all for me. ^^

The 4th season is probably the best season of them all.
