Thread: [Is eWhoring Still Profitable?](#)

Techius - December 20, 2016, 11:37 pm

I see this question a lot on this section. There is nothing wrong with asking whether it can be profitable or not, but the problem is that you shouldn't be asking us whether it's profitable or not, you should be asking yourself as we cannot answer it for you. Another problem is that you're using the wrong word when asking whether eWhoring can make you money or not. The word you want is income.

Profit: "A financial gain, especially the difference between the amount earned and the amount spent in buying, operating, or producing something" - <https://en.oxforddictionaries.com/definition/profit>

Income: "Money received, especially on a regular basis, for work or through investments" <https://en.oxforddictionaries.com/definition/income>

If you've spent money on buying eWhore packs and traffic, and you still haven't made enough money to pay off those investments, then no, eWhoring is not profitable. On the other hand, if you have paid off those investments and are making money, then yes, eWhoring is profitable.

The real question you should be asking is whether eWhoring can produce income or not? Only you can decide that.

I wasn't asking whether it was profitable or not, pillocks.

LoL, well DUH!

eWhoring will ALWAYS be profitable! SEX sells and always has been and always will.

You just need to keep new unsaturated packs and keep up with the new social media. That is all.

GL!

If you're not making money from Ewhoring you must be paying your victims for their nudes? ?

I don't assume this a problem for 99% of people in this topic, but you have to pay for power, internet, etc. stuff that makes eWhoring possible. That's just another expense which makes eWhoring less profitable technically.

Uhhh electricity and internet are not very expensive..... You can make a living out of eWhoring. Im not just stating ONE type of ewhoring, such as selling pictures for a couple dollars. eWhoring goes

WAYYY deeper then that. Adult CPA is a huge profitable bussiness and has been paying me personally VERY well!

But, even just selling picutres and doing a few shows it is very profitable. eWhoring is 99% profit if you know what you are doing.

Not sure what you are really trying to ask LOL

I'm not talking about how expensive it is specifically. I'm saying that it can factor in to your expenses that decides whether eWhoring is profitable or not.

I was about to ask the same question to you. I don't think you understand what I'm talking about. I'm not talking about how expensive eWhoring is, that's not the goal of the thread. The goal is to answer the common misconception of eWhoring "is it profitable or not?"

Everything might be obtained for free by you, but it's different for other people. Some people buy packs, traffic, etc. which is an expense, which lowers the profitability of eWhoring, same with paying electricity and internet.

This isn't a troll thread, I'm not trolling, you're just misunderstanding.

OMG, brother you are dumb! I have answered your question. Even if you are too dumb or lazy to get your own packs online, obtain your own traffic, you can still me a profit!

Electricity and internet bills are NOT expensive at all! LMAO

I am not misunderstand, I have answered your question several times!

YES eWhoring is PROFITABLE. Even after you pay your electricity bill and internet bill and if you are too dumb or lazy to get your own packs online, obtain your own traffic, you can still me a profit!

The title of this thread was different than the main content I posted. You clearly haven't read it, and just decided to skip to comments to complain that I was asking whether it was profitable or not even though that's not the main goal. It's profitable for me. People, such as you, don't know the true meaning of profitability, which is what I was trying to address in the topic description. Read through it again instead of jumping to conclusions like what you've been doing.

? [\$(1000)\$] ? - December 21, 2016, 12:05 am

eWhoring is very simple. You can obtain your own PRIVATE unstaturated packs online for FREE! You can obtain your own traffic (as 99% of people) do!

eWhoring has always been and always will be profitable.

If you are asking such questions then why are you even selling an eWhore Guide..... :FacePalm:

I have read through it several times and also have responded.

Trust me I do know the true meaning of profitable. LOL

This was a good laugh to start my day. Thank you OP for the laughs!

There's always going to be competitors. What you need to do is make sure that you have the best method possible to make the most money. That's all that matters nowadays.

The Poseidon - January 29, 2017, 1:44 am

It is very very very profitable, have never purchased any picture pack or video pack and this month alone have stacked over £6500/£7000 so it's all going well.

I'm that competitor which steals all of your customers, social engineering game is strong.

Don't give up!
