Thread: [\[CHRISTMAS\] FREE \\$5 BTC: FastBets.io Generous BTC Giveaway - Come Celebrate With Us!](#)

Gay - December 21, 2016, 7:59 am

Hey Hackforums, long time no see! In fact, it's been so long that our last name has been legally changed! Previously known as FastSlots, FastBets is back with a great giveaway to celebrate the festivities of the holiday season. We are giving away at least 10 goodie bags of Bitcoin. More information below:

Starting now (yes, now!), FastBets is giving away Bitcoin prizes to active members. Each winner will receive \$5 BTC (0.0065 BTC). There will be at least 10 winners in total.

How do you enter? It's easy, simply post your FastBets username below! Only accounts with 0.4 Bitcoin (400,000 bits) wagered or more will be considered. If you already have that much wagered, great! Just post your name. If not, it's time to get yourself an entry into this great competition. Winners will have Bitcoin credited into their account. Funds can be withdrawn or wagered instantly upon being credited. Posts on this thread up until December 28 11:59 PM PST will be accepted. Winners will be chosen via live random draw, most likely via join.me.

Cheers, and we wish you a Merry Christmas from the FastBets team. We are looking forward to celebrating a great holiday season filled with fun, and we do our best to provide just that!

So if 10, or less than 10 people, its \$5 guaranteed? Mathematically giving a positive house edge.

Interesting...

Correct. A minimum of 10 x \$5 will be given away! That is, if 10 or more people enter. If less people enter, everyone who entered will be gifted \$5, completely free! No strings attached of course :) because what is a Christmas gift with strings.

If you have any more questions please let me know! I'll be more than happy to answer.

Be apart of this awesome celebration! Still tons of time to get entries in

Wakka - December 23, 2016, 9:04 am

This is hardly a members contest, more like an offsite contest.

Kind of! It's a giveaway exclusively for Hackforums members. Only members of Hackforums are eligible to be apart of the 10 spots that are still open for entries.

You just need an off-site requirement to enter! Which can be achieved quite easily

Wtf?

So I have to wager \$400 on your site to enter a giveaway for \$5?

Correct! That is, if you haven't wagered already. If you've wagered already, even years back, you are clear to join! This giveaway is not only for new players, it is to give back also to active players! Active players will not have needed to do anything to enter, but to post their username in this thread.

As well, only about \$360 wagered is needed. Merry Christmas!
