Thread: [Silent XMR Miner Builder | CPU | Persistence | Anti-Sleep | Botkiller \[50\\$ \] \[6/10\]](#)

Tee Plow - December 21, 2016, 9:38 am

Hello everyone today i'm selling a Silent Monero Miner Builder

it's coded in vb.net and has .net dependencies !

Features :

Startup Install

Persistence : If user deletes the startup registry key, the miner will write a new startup key immediately

Anti Sleep : Prevent the machine from going to sleep mode

Silent : wait 5 mins or whatever you choose of idle time before start mining and stop the miner when there is activity

Miners Process Stops if Task Manager is Opened and Resume when it's Closed

Choose Number Of Threads

Works only on x86 and x86-64.

Botkiller

Anti VMware

Mutex : This guarantees only one instance of the miner will run per PC

Screenshot :

Miner Scan : <https://scan.majyx.net/scans/result/ff12b8bf4138d9cddfa8e370e40ac56508802c9b>

Only 10 copies will be for sell

The Builder will be 50\$, accepting Bitcoin only !

How much you can get from this ?

If you have 500 bots, running 40h/s (average speed), you will have a hashing power of 20kh/s,

earning 3.27 XMR a day, which is about \$27 USD.

Can i Crypt the Miner ?

Yes , you can crypt the miner

VOUCHS :

(Dec 21, 2016 11:00 AM)UKninja Wrote: [\[CITE\]](#) Yessssssss! This has been a great project to be alongside. Good luck with sales bro. I can confirm it works as described. Vouch from me!

(Dec 22, 2016 11:19 AM)BzrK Wrote: [\[CITE\]](#) So received my vouch copy from Tee Plow and have just tested it out. I am impressed.

The miner is super simple to use, and most of the configuration is pre-done you just add in your address and you can (optionally) change the pool if you so wish.

It's really stable. I haven't had it crash on me yet, I've been testing it on my 8core and it utilizes them all properly, as well as 20+ other machines which I have yet to see fail. You can't go far wrong with this miner, it just works. My only concerns are that I would like to have seen a GPU miner, but from a stability perspective I imagine that would hinder it a bit, so that's fair enough. And secondly, the stub is a bit big, around 3mb in size usually, but this is not the biggest issue in the world.

I'll give this 8/10, thanks for the copy Tee Plow. GLWS.

sure , i will send it to you soon !

LastSession - December 21, 2016, 1:36 pm

If you are giving out any vouch copies I would gladly take one and write a detailed review.

Basti - December 21, 2016, 1:36 pm

Awesome product! I might be interested when my new laptop comes in, good luck with sales! <3

Frankey - December 21, 2016, 1:39 pm

The virus scan provided is from the generates file right? Just confirming. I'm interested; will msg you

if I really want it tommorow not sure yet.

yes it's from the generated file

mailen.doon - December 22, 2016, 5:49 am

awesome Silent Monero Miner Builder ,i try it.its so great from u Tee Plow

Papa Cuda - December 22, 2016, 5:53 am

Are you able to distribute miners to different pools. Might be interested

Tee Plow - December 22, 2016, 5:58 am

(Dec 22, 2016 06:53 AM)cudacore Wrote: [\[CITE\]](#) Are you able to distribute miners to different pools.
Might be interested
sure i can do that

update : just added mutex feature

bzr? - December 22, 2016, 10:19 am

So received my vouch copy from Tee Plow and have just tested it out. I am impressed.

The miner is super simple to use, and most of the configuration is pre-done you just add in your address and you can (optionally) change the pool if you so wish.

It's really stable. I haven't had it crash on me yet, I've been testing it on my 8core and it utilizes them all properly, as well as 20+ other machines which I have yet to see fail. You can't go far wrong with this miner, it just works. My only concerns are that I would like to have seen a GPU miner, but from a stability perspective I imagine that would hinder it a bit, so that's fair enough. And secondly, the stub is a bit big, around 3mb in size usually, but this is not the biggest issue in the world.

I'll give this 8/10, thanks for the copy Tee Plow. GLWS.
