Thread: [====> ULTIMATED BTC MONEY MAKING METHOD * 100% SUCCESS * AutoBuy * \\$10 *+PROOF <====](#)

SHOLLEX - December 21, 2016, 10:01 am

This is the method how did I exactly generated 1 BTC over a few months!

I'll be giving few vouch copies to whomever I deem to be trustworthy to post some reviews!

Vouch Copies left ; [0/3]

At the first point I was kinda sceptical should I share or not this amazing method?
Then I felt like I should be giving back something to the community.

So there you go;

Gambling ? Yes, It does include gambling but the risk is low as 0.01% that you will ever lose your investment with this method.

Why am I so confident with my method? Well It has been proven to work over and over for past few months as you can see.

Also I'll be offering full refund if this method by any chance doesn't bring you profit or you don't achieve the same goals as I do !

The price will be as low as \$10 per copy, I'm feeling pretty generous by doing this huge favor for the community, Im positive there will be a lot of people who will resell this exact method for \$50 or even more.

Payment method BTC only.

I would like to say that its a simple method that can easily yield profit.
I think its very beginner friendly and quick to setup!
For any beginning bitcoin gambler I think this is a great method.

Enjoy!

As long as you pay attention at all times, I believe what the OP states can be achieved and scaled.

I have been testing this with smaller balance and thus far works as stated. So if you have higher

starting balance you could essentially make more quicker.

Good luck with sales!

Is this the same as your previous script? Can you run it on <https://stenlan.github.io/BaBSS/> ?
Whats the bustabit account that you've been running this script on?

Hey LegitRetard, well glad you asked;

This isn't Bustabit or anything related to bustabit itself. This is a method for another gambling site that has been successful for past few months.

Does this have to do with gambling?

What's the math behind this 0.01% figure? Did you just multiply your lose chance % from martingale? Because unless you have a consistent % edge over the house, I don't see how this really helps you?

Well the math is what we sell here, right ? :)

Well It has some recovery system but we are trying to stay away from that as much as possible. Method works great with any kind of investment but as usually you want to invest as much as you can for better return. If you have any additional question please refer to PM or add me on skype. Regards

Thank you everyone who purchased this method and good luck making money. Looking forward to see some results from you guys! ?

This method still works, get it while it last :)

kekes - February 10, 2017, 11:20 am

You just said that you made 4x profit and then you lost it all ? Its gambling and is pretty good method to double or even tripple your investment but you cant just keep it running forever .. make your goals and x2 x3 is just perfect, let it cool down and come back reapeat the process.. easy :)

kekes - February 10, 2017, 12:22 pm

a 100% sucess in title and a 99.99% in thread :)

its not even close to that. it looks like u didnt even did math on the strategy or ur math is not really good :P, the add on loss is totally random, its adding way too much to regain ur loss.

not trying to blame u,i know its gambling and there is and allways be a risk even tho u can minimize it , i allready got my losses back, but it looks like u just randomly typed some crap in a notepad file and sell it :s i hope im not revealing too much on the strategy. have a nice day.

same for the 150-180 , it just makes no sense^^

SHOLLEX - February 10, 2017, 12:26 pm

Well I made exactly 0.9 BTC for few months with this exact strategy and it still works and you already got your losses back and at the first place you let it run too long, if you make x2 or x3 your investment just stop it and chill.. come back later on and do the same, its gambling you cant let it run

forever but you can follow this method and make huge profit outta it. ?

kekex - February 10, 2017, 12:29 pm

ya but made it back with satoshi mines tho :D not gonna use this anymore. still good luck with sales, if u edit the title and the thread i will even remove my post, i dont want to harm ur sales. but a little honesty is allways good , 100% nor 99.99% is just not true and probably not even possible :)
