VirtusGraphic - December 22, 2016, 5:45 am

I love just the simplicity of it. It's a matter of subjection but, your watermark is a tad too bulky for my liking.

.Astro - December 22, 2016, 4:15 pm

you did this in 15 minutes? good lord, I could probably barely get the outline down in 15 minutes lol.

^ to continue this he,

> makes awesome vectors
> has a painful logo

But in all seriousness. Your work is always very clean and the details are always very good. You have a solid foundation so I am not surprised you can pump something like this out in 15 minutes. I'd really like to see you step outside of portraits and human figures and maybe tackle new subject matter. I think you'd make some very amazing illustrations. Well nice piece as usual. Side boob ftw on this one!

W?lr?? - December 28, 2016, 8:32 am

Everything looks good but the gap between the face and the body looks off lmao

Otherwise, way better than what I could do.
