For fast response, add me on skype.

I've already received 5 private messages (Gfx requests) from this thread, so it would be nice if u post feedback or tell your interest here and keep this thread alive! ?

you look very professional.

good luck with that.

if you will accept non upgraded account i might ask for a design.

until then good luck with others requests

What kind of design you need?

If you are going to start some kind of business or service at hackforums, i can do little Gfx stuff for you when I come back to home from vacation.

Unfortunately, because you have posted 0 threads and only 5 posts. I did not see useful to this community, to make avatar or signature for u yet.
