Thread: [bought razorcrypt 2 years ago. what would you do?](#)

SIM-2053312 - December 22, 2016, 7:35 pm

I read a lot about L.E raiding people who bought this program, but if someone bought razorcrypt 2 years ago with vics with there personal paypal. What would you do? Delete all vics and BH stuff and wait a year or so till its safe? Oh and this person lives in a first world country. It isnt me btw.

Stretch that anus before you go to jail, or learn to hold the soap.

FractumSeraph - December 22, 2016, 8:03 pm

Read the security guide in my signature, I'll update it later.

I'm not 100% sure if anything will happen, but better safe than sorry.
