Thread: [\[1.37\] GTA Online Money lobby daily](#)

SIM-3257834 - December 23, 2016, 4:35 pm

Requirements for joining Spoiler ([Click to View](#)) Simply because leechers are pieces of shit
25 post and reading the damn rules

Rules

1. There will be no discussion of mods in the lobby, any hint can result to a kick and ban from future lobbies.
2. Do not spam the chat!
3. Avoid conflict with members and NPCs (In general the lobby and chat).
4. No passive mode or any reports towards me or others.
5. Post your Social Club in the SocialClub channel. Do not post your SC name here! For verification purpose you will need to post your SC with your HF for example SC:Ahri and HF <https://hackforums.net/member.php?action=profile&uid=3257834>
6. After verifying your SC and HF account you will need to verify your Discord name by posting it here. Those who do not verify their account will be kicked within a hour. Verification is the only way I can ensure no one is there to cause harm or insiders to gain Intel. After verify your discord name I'll place you in the verified group where the limitations will be lifted. I'll look into other ways to make verification easier and simple.
