Eclipse: Support

Support Details

We all need help with issues from time to time. Whether they pertain to family, finances, relationships, or just general problems, everybody goes through hard times. That's why we decided to offer everyone from Hack Forums support from Eclipse. We are here to listen to your problems and help you through them.

We will try to support you guys with whatever issues you are dealing with. We won't try to claim that we've been in every situation you guys will contact us about, but we have definitely been through a lot and we feel like it's time to give back and help others that might be going through similar issues.

There are two ways to ask for help/advice and to receive support from Eclipse members:

Post your scenario below and any questions you have regarding it, and an Eclipse member will reply to you directly on the thread. Some problems may be complicated and the solution may call for more than a single response. Simply quote our response(s) to any other questions/concerns you might have and we will go from there.

If you wish to keep it private, you can choose to PM any of us below and we'll respond to you as soon as we are available.

Official Support Team

[RYAN REYNOLDS ?](#)

RYAN REYNOLDS ? has been through countless difficult situations. Financial, family, relationships, etc. He's been through it all and he's still standing strong. He's known for helping others through tough times since he can relate so well. He's had his own personal helpdesk in the past as well so he is very well experienced when it comes to giving advice to others and setting them on the right path.

[Regulus](#)

Regulus can offer emotional support and advice around other topics as well.

[#Skyline?](#)

#Skyline is good with giving advice around his personal experiences such as issues related to addictions, friends, harassment, violence, anger, bullying, family issues, relationships.

[illuminati?](#)

illuminati? can help/assist you with the following problems/situations; Addictions, Anxiety (Social, non social), Depression & suicidal thought, Anger Issues, Mental health Problems (He has mild Schizophrenia), Relationships (Girlfriend/wife/fiance), and more. Feel free to send him a private

message. (He will not judge you whatsoever). He will attempt to help you the best he can!

[Minimalist](#)

Minimalist will offer support and attempt his best to help members out at anytime.

Please note that no member will be judged on their site stats, reputation, etc. Meaning that a regular member will be helped just as much as an Ub3r member.

Appreciate the fond comments from all of you, if any of you need support I am also available as well although it'd be nice if you could contact members on the thread first if they're available as well.

I'll be purchasing a sticky for this and depending on the outcome if we see that the service is actually helping people then Eclipse well do it's best to make sure this lasts as a permanent sticky.

Looking forward to help people around the forum :)

#Skyline - December 24, 2016, 6:13 am

I'm available if anyone needs advice or assistance. Please let me know, I'll do anything to ensure personally you're in a stable situation.

I've seen a lot of friends turn the wrong path in life. And I'd do anything to ensure you don't make the same mistakes as people I've known personally.

Dredd - December 24, 2016, 6:16 am

I'm addicted to buying awards to the point where I'm selling my body to make a dime.

Jokes aside this seems nice well done Views and others.

Thornzzz - December 24, 2016, 12:49 pm

This seems like a pretty cool thing to do, I support it. I remember when I used to do these in The Empire and Infamous.

"#Skyline is good with giving advice around his personal experiences such as issues related to addictions, friends, harassment, violence, anger, bullying, family issues, relationships."

Dear Skyline, I wrote you but you still ain't calling
I left my cell, my pager, and my home phone at the bottom
I sent two letters back in autumn, you must not-a got 'em
There probably was a problem at the post office or something
Sometimes I scribble addresses too sloppy when I jot 'em
but anyways; fuck it, what's been up? Man how's your daughter?
My girlfriend's pregnant, too, I'm bout to be a father
If I have a daughter, guess what I'ma call her?
I'ma name her Bonnie
I read about your Uncle Ronnie, too, I'm sorry
I had a friend kill himself over some bitch who didn't want him
I know you probably hear this everyday, but I'm your biggest fan
I even got the underground shit that you did with Skam
I got a room full of your posters and your pictures man
I like the shit you did with Rawkus, too, that shit was phat
Anyways, I hope you get this man, hit me back,
just to chat, truly yours, your biggest fan
This is Will.

I would personally suggest something with electrolytes in it rather than water, as an example you could drink Gatorade or something similar.

I would suggest trying to eat somewhat if you haven't been able too try to eat something small like bread or crackers, and maybe take some Nyquil/Dayquil gel capsules if you're able to get any.

Wakka - December 24, 2016, 1:19 pm

For many years now I have been plagued with having a little tiny baby dick, It measures just 3CM in length. I've tried everything from stretching it, weighing it down and even playing with it frequently on a daily basis.

Nothing seems to work, as a result, I just feel very depressed all the time and it's really having an affect on my social life, I've considered having surgery but then it occurred to me if the surgery goes wrong I could end up with an even smaller baby dick.

Any advice on how I can move forward from this?

Thank you!

I would recommend taking some medicine as well as drinking electrolytes. I'm not sure if they have this in your nearest drug store, but there's something called "Mucinex". I always take that when I'm feeling bad or when I feel like I'm going to get sick. It always does the trick :)

Maybe you just "think" you have every thing you need. Is there anything more you want in life? Maybe you want to live elsewhere?

Being successful and having everything doesn't necessarily make you happy. There could always be something missing that you won't know what it is until you figure it out.

I'm not 100% sure if this is a serious question but I'll answer it as if it is.

If you have a small penis then there isn't really anything you can do about it. If there is a medical procedure, I'm sure it would make it look weird. Just be proud with what you have ?

I never said there was anything wrong with that. A lot of people have small penises. You just have to learn to live with it.

In all seriousness here, financial stability and success isn't all that you need to be happy, I'm assuming by the emptiness that you're not very happy in life, the best way to go about that is to try and be a bit more outgoing make new friends and add a little change to your life, by doing so you find new things to fill the emptiness.

If this doesn't help much I can attempt to offer better advice, or let me know if I'm on the right path.

I think you should hang out with them more often, if you're thinking about it. Sometimes when I feel down hanging out with my friends really helps my emotional state. Make some time for your friends, and I think that would be a great start. ^^

Yeah I'd like to stretch this out to a permanent sticky if we see the Service actually helping our members of the community, it'd be really nice to see some progress although if there isn't much it'll dwindle, Eclipse is down to support the project as long as members are interested in it.

Well, I lost my stepfather about 3-4 years ago. I have to deal with a lot more than grief. But my advice to you would be to stay strong for others and don't let it hold you back. This might come off cold, but life goes on. Take a few days to grieve but you can't let it stop you from continuing to live your own life.

If you have more sex then usual it creates a good workout so could help her lose some weight if it bothers you, also if you try to establish more activities with her around going out rather it's a walk through the woods or bike ride together that could also help.

Writers are members of the Hack Forums News Team or Wiki Team, both groups have there own respective subforums in the RNAF section, recruitment can be found there as well.

Mentors moderate some sections of the site and can't stick/unstick threads, they can junk certain threads and posts though I believe, they are only hand chosen by Omniscient and you cannot apply.

You could try going into your router and blocking all websites related to CS:GO gambling in the firewall. If you know of any specific websites that you use regularly (csgofast.com for ex.), you could add its absolute URL in a rule as well (^csgofast.com\$).

Alternatively, just enable your trade restriction by disabling the Steam authenticator ?

Contacted Ryan earlier, helped me ease my emotional pain.

Thank you for for offering this service.

Contribute something notable/huge to HF for it. How you want to work towards it is up to you.

So I could you just send you a pm? I'm always afraid and don't want to spam anybody's inbox or something.

Very nice from Eclipse.

Hope someone will benefit from your help.

Big support for this thread from me.

This is pretty cool, never seen this sort of thing done before. Props to you for willing to listen to and help other members of the community.

Ryan hasn't been too active since that was posted although if you don't want to see it you could add him to your ignore list and whenever his posts pop up if you want to see them I'm pretty sure you can unhide them.

Maybe he could change his signature instead though it's not my favorite one he's ever had.

I've always had a girl on my signature. I guess this one might be too much though lol. I'll look for another one that it's too bad :)

No problem at all bro :) I won't include my signature in this thread until I find a new one.

I have been part of similar things to this in the past. Might ask for some tips in the future. Thank you in advance for doing this.

Can someone explain the gauth system and what we do with it?
I see last gauth verification and do I verify it every day? Or ?

Thanks

2FA, or 2-Factor-Authentication, is an extra layer of security which uses an algorithm to produce 6 digits (usually every 30 seconds), which is your 2FA pass-phrase. If you enable it, then anybody who wants to log onto your account will be required to know both your password and your 30 second Google Authenticator code.

You can verify it every day or before each deal, or never. It's really up to you.

Oh thanks!

Makes sense.
