Thread: [What happen to autolog and damienVC?](#)

Toxic Waste 101 - December 23, 2016, 10:45 pm

I just saw the thread was gone and the owner got banned. What happen?

Tid?es - December 23, 2016, 10:46 pm

He got closed, although I have no idea why. Check out the HF News Weekly Reports thread, it has some information in there. Pretty sure you can still contact him through skype.

JoshuTee - December 24, 2016, 12:58 am

Probably because the ad to Autolog promoted illegal black hat activity and his many scam accusations and reports, just a thought

HackYouBitch16 - December 24, 2016, 2:36 am

I purchased the autolog and had a bad experience with the support. wasted money

Marwix - December 24, 2016, 3:04 am

This is the last comment on the page:

(Dec 23, 2016 09:00 PM)illuminati? Wrote: [\[CITE\]](#) Editing his threads to say what they did, is bad for SEO.

Taking "Quality" content and replacing it with nothing...

donat2013 - July 22, 2017, 12:41 am

Please someone send me autolog skype name, i bought a lifetime package and it's not working anymore.

Same xD But I bought it a looong time ago and just found out he's gone. Rip \$45.

And before you say it's only \$45, I'm poor so that's a lot xD Don't ask why I got a keylogger in the first place. I was tired and thought it looked cool so bought it XD

DamienVC got closed last year guys.

R.I.P. DamienVC.

Pretty sure the projects dead at this point. I mean I could ask him, but I dont see a point. lol

Blurred out jabber because it was a different private one.

And you still deny who you are.

Goddamn you are brain dead.

You are lucky Omni just dont give a fuck anymore and is feeling burnt out.

(Jul 23, 2017 05:38 AM)Friedrich Nietzsche Wrote: [\[CITE\]](#) Codefuser asking me for a .NET dev means I am him? Makes sense, am I right?

It seems like a lot of you don't seem to understand the basic differences between Codefuser and me so I might as well point it out.

1. Codefuser is an Autolt developer, I am a C developer.
2. Codefuser attacks people with memes, I attack people with logic and reasoning.
3. Codefuser is a crypter coder, I code much more than crypters.
4. Codefuser doesn't care about his opsec, I do.
5. Codefuser is inferior at debating. It is just a fact.

It rather disheartening to see you making false and baseless claims like this, ruins my motivation to browse HF. Thank goodness for SRPP, we have some actually smart people there to counter the likes of you.

Spew some more gibberish my way, I love reading bull shit. ?

CortexM4 - July 23, 2017, 5:41 am

I guess it's better than getting danked by dank meem's

Don't worry I'm not codefuser, i would check under your bed if i was you.
