Oh yeah this was a big change of pace from Usagi Drop. From a 30 year old dude taking in a 6 year old to high school students exchanging drool. I love it

The story was really good (in my eyes no hate) and the art was amazing (not on par to more recent stuff but still great)

Have you read the manga? Is it worth reading after the anime is finished?

Haven't seen it, the idea of a series based around drool just... I can't.

Watched it awhile back.... It was one of the more weird anime I've watched. Lol

Yeah I think I prefer the manga though. Just finished up to chapter 92 on crunchy roll but I would love to see a second season
