I will re-write my review of the e-book since he deleted it because he can't handle criticism.

- 1) All the methods listed in the e-book are PUBLIC and FREE.
- 2) Barely any effort went into the e-book to thoroughly explain the methods, to maximize efficiency and reliability. For example, he gives out sites for free proxies which will make Sentry MBA incredibly slow and inefficient.
- 3) He pm's me calling me an idiot for writing the above, when everything i just said is true.
- 4) The people vouching for this thread have no idea how to search the web, this is all free and more in-depth + advanced on another forum which i won't list, since that isn't allowed. The only reason i bought it was because i was thinking it would be unique.
- 5) The software that he gives you he is low quality.

Don't delete this, because it doesn't break any rules if reviews aren't allowed then neither should the overly positive and misleading vouches posted.

- 1) All the methods listed in the e-book are PUBLIC and FREE.
- 2) Barely any effort went into the e-book to thoroughly explain the methods, to maximize efficiency and reliability. For example, he gives out sites for free proxies which will make Sentry MBA incredibly slow and inefficient.
- 3) He pm's me calling me an idiot for writing the above, when everything i just said is true.
- 4) The people vouching for this thread have no idea how to search the web, this is all free and more in-depth + advanced on another forum which i won't list, since that isn't allowed. The only reason i bought it was because i was thinking it would be unique.

You dont know if anything is low quality of you didnt see nothing retard. And this is harassment because you are coming back everytime and this has been reported another time.

Sickness is very experienced in cracking and his guide is very good. He and his ebook have taught me everything I know about cracking. Sales trashing is not accepted at all here. Please take your toxicity to another site. People like you ruin the marketplace.

Vouch once again for xEmpire and Sickness.

I have added you on skype in hopes to rectify this error, am willing to provide any proof of the purchase etc.
