Really cool people, cool stuff going on, not even loungy.

Aside from Baka but baka is just for people who talk to people of the opposite gender (or sometimes same gender, or sorry for assuming your gender) and people who watch cartoons like me :P

amount of individuals that I see around the forum who are kind, and help to assist others. Having others seem me as one of these individuals would honestly make my day. What sets you apart from others, i.e., why should we invite you?:Like I said before, I post a significant amount here on HackForums. I have only been here for a couple days so far, although I'm sure I can do good. I will be opening my Graphic Design services rather soon, and possibly invest some money into some products. I also want to learn new skills that can help me on the forums, make money, and in real life. Ever since I began joining groups on Hackforums I've always wanted to do a group project to either make hackforums safer or make money. If I get accepted your lounges will become 10x more lit and active(Check post activity) I should be invited because I would love to join a group that has a basis of something I strive to do. Management/Micro-management

From managing and scheduling a team of people in a busy environment without a plan, to playing team-based games (online) to secure win-rates over 85%, I can manage a wide range of audiences in many different niche environments.

Whoever they are, whatever we are doing, I can control it to make sure it works efficiently, properly and with great results.

The flip-side is that I can work in a team, being managed and having a role within what we are doing.

Writing I love writing, and I do some form of writing every evening. Right now, my big projects are 'The despair code'- A method of inducing schizophrenia (and eventually, despair) onto people. It covers schizophrenia as a whole, and the workings of the disorder.

I'm also writing about life- how everything we live in is a span of life, and how not only us, the animals and the plants have life, but how the world is a span of life that is living right now.

Why do you want to join the group "Notorious"?:

Learning I know a lot about everything I have written in this application. I know a lot more than that, too. It has taken me from being a drug addict to homeless to having a home and money in my pocket.

Knowledge is why i'm successful- and I'm always growing. More knowledge means that I have more tools to apply in my every day life and future, and learning from other people means that I can find the answers that people on different paths of life have found. Basically, I want to put my knowledge to good use within the group, while learning from like-minded people that want the same success in life.

I wanted to write more, but there's only one bulletpoint.

I just wanted to say that being in the group and having a voice within that group would also have me become better known on HF. People like me need the ear of an important person.

What sets you apart from others, i.e., why should we invite you?:

I'm a star

All human beings are the same. None of us are different from each other, and nobody is more spectacular than someone else. There are few people that we could be, but different people on different (but still walked by others) paths can be more successful than other people whom are like them.

I like to think that i'm high on the ladder of the other people that are like me. There are obviously people whom are better, but I am yet to learn from and respect them.

I'm a star. Watch me.

I just want to learn and be involved in unique things such as this group! What sets you apart from others, i.e., why should we invite you?:Unlike other members I listen and take in what others say, I enjoy getting stuck in with discussions and contributing along with value what other people think of me, Notorious feels like a group that has very high standards and I feel I can meet them standards and not disappoint. I would like an invitation to get involved and I will get involved - I mean everything I say and have a passion for these type of things.

The main reason I'd like to join notorious is because I think there are quite some HQ and friendly members, I'd love to meet new people and have some more social interaction.

I'd like to exchange my knowledge with other members and also learn from other people their knowledge, I think notorious is the right place to do that. What sets you apart from others, i.e., why should we invite you?:The reason I think you should invite me is because I'm a very reasonable and mature guy, I'm friendly and trustworthy.

I am very dedicated and I'd like to be involved with the group activities, beside that I do not trash talk.

Emotional Support Why do you want to join the group "Notorious"? :I want to join Notorious because I'm frankly tired of copy/paste lounge groups that discuss and contribute nothing. Being have been a member of both 143 and Infamous, I've been really longing to have something as tight-knit as those two groups were. Another reason for wanting to join is the fact that I need a kick in the ass to get back on the horse and contribute to HF with members, a group can accomplish much more than an individual possibly can. I'm not assuming that this group has the qualities I'm looking for in a group but since joining is the only way to find out. Also learning and honing my craft is something I've been neglecting for a while and want to get back into, I've been guilty of laziness and hopefully being here will be a wake up call. What sets you apart from others, i.e., why should we invite you?:What sets me apart from others is that I'm incredibly loyal and dedicated when I find a group I like and fit in to, asking anyone who was in 143, Infamous or The Empire will tell you how dedicated I am when it comes to family. I'm also a hard worked and quick learner who will honestly be a joy to have around, I'm laid back when needed and dead serious when needed.

Expanding on my skills:Fitness & Nutrition:

I went from 70kg of fat and not being able to bench an empty bar to 70kg of muscle and being strong as shit. I've spent a lot of time researching and reading article upon article when it comes to this topic. I'm very very proud of my knowledge when it comes to getting big and strong.

Music:

I play both bass guitar and guitar, I'm currently learning music theory to expand on my creative

talent. Been playing on and off for a couple of years now and I'm a bit of (a lot of) a music junkie.

Computing:

This is my major, though I've been very lazy with it, I have a good grasp of everything having to do with computing. I haven't done much with this for a while and I'm very pissed at myself for that, hopefully this group will give me a nice kick in the ass. In the process of getting my A+ cert soon, I should have had this years ago but again I fucked up and was very lazy.

Emotional Support:

Being a lonely empathetic kid can really teach you how to help others, I'm the guy all my friends come to when they need someone even though I hate being an emotional tampon. Being a part of 143 really helped me expand on these talents as well.

Notes:

I know I have an open scam report, I have paid the user I owe money back in full but he is closed so I'm not sure what I can do about that. The scam report is my bad, I shouldn't have borrowed money without having a way to pay it back. Thank you for taking the time to read my application, I assure you that you won't be disappointed if you choose to accept me into your group.

No, but seriously. I just would like additional content to browse and interact with. It can get pretty lame just watching the lounge, vices and league of legends. Getting the oppertunity to take part in what ever you're discussing would be a lot of fun for me :)

Another thing is that I got hired by Siemens to study IT Management. My study starts in September.

Why do you want to join the group "Notorious"?[0] I want to be better than I am; I want to know more and further my abilities, and to put to use every gram of potential in me, and Notorious presents itself to be an excellent platform for that.

[1] I want to make worthwhile friends and relationships. I have few friends on HF, and Notorious seems like a group full of people I would like to be and benefit from being friends with, and people that would benefit from being friends with me.

[2] I want to find new interests and skills, and seeing how diverse Notorious is, it again seems to be a great place to do just that. What sets you apart from others, i.e., why should we invite you?:For

one, what I know I know well, and am constantly learning more. I possess a lot (relatively) of knowledge in my field, and I love sharing it and putting it to use solving both my own and others puzzles, problems, and challenges. I'm also an earnest student with a brain that can never get enough information, and I feel that one of, if not the best way to learn things well is to teach them to others, especially those who show interest in it. To begin with I'm a good asset to the group with information, skill, and experience, and I have the potential, ambition, and interest to be a great one. You will not regret inviting me.

Private Investigation

I have been into private investigation (commonly known as doxing) for a few years now. I've become pretty good at it and it's a skill that can be useful anywhere. I've put my skills to text, writing and creating two doxing e-books which I sold the rights to and are now the most popular ones on the market.

Botnets

I have been interested in botnets since I joined HF. I've spent a lot of money on them, gained a lot of knowledge of how they work. I used to run a service on here which made me a lot of money but unfortunately that sub-forum has since been removed.

Rats

I have been using different types of RATs for years now. I've become very familiar with them. I'd personally love to learn a lot more about them, how they work and how they are made.

Why do you want to join Notorious?

This group has continuously impressed me, I've seen many members in this group be very kind,

helpful and nice to other members and that's something I want to be apart of. This group seems to represent a lot of things I myself am interested in such as the following;

Pentesting

Malware Analysis/Removal

Experience in botnets/RATs

Cryptography

For these reason, I would love to become a member of this group and learn from other members and also share some of my own knowledge and experience.

What sets you apart from others, i.e., why should we invite you?

I feel I'd be a great addition to this group, I'm kind, friendly, helpful and well mannered. I have a great work ethic and I'm not here for the userbar, I'm here to make new friends and learn. I can bring my knowledge to this group and hopefully throughout my course of being a member I can teach other members some things I know.
