I think it's valid only for orders over £20. You may want to edit the OP.

Wow damn wish it was for India. I could have got myself a large Chicken Golden Delight pizza right now.

Just checked myself. Prompts as invalid. Order might have to satisfy certain conditions to qualify.

Where did you get this from? After signing up, <http://www.whispercode.co.uk> says "50% off when you spend £30 using your personal Whisper Code: WHISPERS".

Maybe different stores require different minimum spends?

Quackles - January 2, 2017, 6:18 pm

The code still works from what I believe, it has for quite a while, I think it'll mainly work on lowkey areas.

Only works for specific stores, don't know what ones, but this has worked for people across the country and hasn't for a big portion of people.

Still active for me though, depends on your store and how lowkey they're or something idk.
