Wakka - December 28, 2016, 11:18 pm

Which theme are you currently using?

I use hackforums purple.

HeyBuddy - December 28, 2016, 11:20 pm

Blue is a lot better IMO

but that's because blue is my favorite color ;)

Blues my favourite colour but I dunno, there is something about HF being in purple that I like maybe I'll try blue.

vaiperboy - December 28, 2016, 11:33 pm

i never knew there r versions of hf theme, link me plz?

Tid?es - December 28, 2016, 11:36 pm

I didn't even know there was a purple..trying it on now to see how it is

EDIT: no I prefer blue lol

The purple is hard on my eyes.

Mr. Robot - December 28, 2016, 11:46 pm

I personally use blue.

Anyone who uses a userscript should definitely disable autoupdates as we found a way to make yall selfban if you use it

Anticipate - December 28, 2016, 11:46 pm

Purple is where it's at. Blue was disgusting when I just checked it real quick.

ama - December 28, 2016, 11:47 pm

I use purple, but I start switching back and forth.

SIM-403479 - December 28, 2016, 11:50 pm

I use blue.

It's doesn't really bother me.

Wakka - December 28, 2016, 11:54 pm

I can't use this blue... just tried it's not comfortable on my brain at all.

Brendan - December 29, 2016, 12:21 am

I use the [Matte Black](#) as, imo, it's the best theme. People always told me to use Flat Darkness and I just don't see why everyone loves that themes so much.

Xogg - December 29, 2016, 1:15 am

Currently using the purple i like blue, but its to dark for my liking

Prophet Banana - December 29, 2016, 1:18 am

I chose purple. It reminded me of the old theme.

LilUziVert - December 29, 2016, 1:18 am

Purp all dayyy son, and everytime i stream people ask me how to make it purp

Fortunate - December 29, 2016, 1:19 am

Purple for the win. Feels amazing to change between blue and purple. But I have been using the purple theme for a while now.

Yandere - December 29, 2016, 1:20 am

Lets be honest we all know purple is better than all the other forum colors. No need for the poll. ;)

Wakka - December 29, 2016, 1:21 am

I'm actually very surprised I thought more would go for blue tbh.

??Austin?? - December 29, 2016, 1:21 am

I am using a tampermonkey extension for theme.

Captain Steve Rogers - December 29, 2016, 1:22 am

I prefer blue over purple.

G Swervo - December 29, 2016, 1:23 am

TIL you can change the theme. Just changed it to purple and it looks pretty sick.

Black Aura - December 29, 2016, 1:39 am

I didn't even know there were different themes

So yeah, I'm using the blue one

BR?ND?N - December 29, 2016, 1:59 am

Purple theme right now. Gonna try and find a custom them that is centered around black.

[Matte black](#) is the basic HF theme but tinted black.

Dredd - December 29, 2016, 2:49 am

HF blue is the best everyone else has something wrong with them.

Mr. Corleone - December 29, 2016, 2:51 am

The fuck ya'll talking about? Mine is white

Thanks a lot for this. Gonna try this out.

Korvo - December 29, 2016, 5:15 am

I really like the Flat Darkness theme, it's probably my favorite..but next to that is the modern blue theme. I like the way the flat darkness stands out on my screen a bit more than the blue.
