Thread: [>>>RUNESCAPE SPREADING METHOD NEVER SEEN BEFORE \\$15 LIMITED OFFER<<<](#)

Mirai - December 29, 2016, 7:21 am

Hello, today I will be sharing my own private method which I have been using for a year or two. Since I'm going to get a job soon and I won't have time to do this therefore I have made my own ebook explaining the method and for it to be sold on here. Also by doing this I hope to gain some more trust from the members of hackforums.

Down below is some evidence of some accounts I've hacked through this spreading method through this past week ?.

Price is \$15 with support for the first 5 sales then I will increase the price to \$20, if you want help after purchasing my ebook message me here on hf.

Overall the method is fairly simple to follow and it targets many people rather than one at a time, which should save you time and increase the possibility of infecting someone. irelord - July 17, 2017, 5:48 am

Just bought this. This method is not "never before seen". Not sure why no one that has vouched has said this. Theoretically it works and has worked however, you could probably guess what it is as people have been doing this since the beginning of time. Nothing at all special as there are more creative ways you could come up with to spread. Disappointing.

?? I bought this method weeks ago and have been using it since, it has been working perfectly and I've made great amounts of profit from it. I've been in the community for a while and have never seen a method like this before (maybe you're not understanding it fully?), and OP has been kind enough to help me all they way through the process.
