Captain Steve Rogers - December 30, 2016, 1:30 am

Please excuse my English.
Keeping it short and simple.

Hi everyone, this is #Programmer,

I like coding & learning new stuff especially related to monetizing techniques Also I came across to HF through a monetizing ebook thread on Google. 3 years have passed and learned soo many things. Some people thinks this site is just for hacking related stuff, NO. All rounder site in my opinion.

Staff Feedback:

Omni - Your hard-work towards HF is unbelievable.

I remember once you said to someone that one day people will say how HF has changed their life, you were right. I'm one of them.

HF has helped me a lot in chase of Knowledge and Income.

Factor8 - I can never forget you, You saved me once when I was unaware of rules.

Skorp, King and Sam you are doing your job very well.

King of Hearts sometimes you put hilarious images/note in ban reasons.

Members Feedback:

Infinity. - You are like a brother to me.

Dafuq. - Cool guy.

Just 2? Yeah, Time shows who your real friends are.

Groups Feedback:

Doesn't attracts me anymore.

Maybe Brotherhood can, lets see.

Thank you ?

You code in Java, right? Because I'm quite sure that title is in Java :)

Great feedback thread :)

System.out.println("Great post"); ?

undefined. - December 30, 2016, 3:42 am

Code from datetime import datetime

while True:

 year = datetime.now().year

 if year == 2016:

 print("Goodluck on your HF journey in %d too!" %(year+1))

Sajuuk - December 30, 2016, 3:44 am

Ayy, Infinity finally on a list tho :)

Just realized that I've been on this forum for almost 4 years. I should probably make a feedback thread at some point lol.

You have very less threads, junked all?

Go ahead mate, let people know about what you think/feel.

Yeah, I junked a lot of them because they were worthless.

Luckily I haven't gotten around to junking the current batch of my worthless threads ?

Abdul.HF - January 7, 2017, 10:58 pm

Nice feedback OP, glad you had nice journey.
