Instagram is wild. Make sure to cross promote your "brand" or personal accoutn (you don't specify which) on other networks. Twitter. Snapchat.

It'll pay off mate. Cheers.

Would you mind PMing me some details? Also did you do this all manually?

Infinitum - January 2, 2017, 3:49 pm

Congratulations!

Did you use a follow software like followliker to mass follow or how did you achieve this?

Look at my other threads. My eBook contains it all. And no it does not require mass follow:)
